

PEDIATRIC DERMATOLOGY INTRODUCTORY COURSE

Organised by: Sponsored by:

The pediatric dermatology introductory course is designed for family physicians, pediatricians and general dermatologists, to provide relevant knowledge and skills in diagnosing and managing common pediatric dermatology conditions.

This certification course will consist of 5 modules, each with 2-4 hours of lectures that participants can watch over 1 month at their own time. After completing the lectures, they will be required to attend a 1-2 hour online "live" session where the experts will discuss the module content and allow for questions and discussions between participants and faculty.

An ASPD Certificate of Completion will be awarded upon successful completion of this introductory course.

We are currently recruiting trainees for the first two batches. Classes are limited to 50 pax per class. Each course will last 5 months.

Batch 1

February to June 2022

Batch 2

July to November 2022

Registration Fee (For Entire 5 Modules)

ASPD Members S\$50

*Non ASPD Members S\$300
