**Dr Ker Khor Jia**

*Medical Director and  
Consultant Dermatologist MBBS,  
MRCP (UK), FAMS (Dermatology)  
Dermatology & Co*

## Talk Synopsis

Our skin barrier is the body's first line of defense to external influences. Ensuring optimal repair of our skin's protective barrier is an important aspect for the management of eczema-prone skin. This webinar provides an overview of eczema, the possible triggers and management strategies in the treatment of eczema. We will also take closer look at key principles of skin barrier repair and how one can incorporate these considerations into their eczema treatment plans.
